

Sukriti Srivastava

Full Stack Developer — MERN Stack — AI Integration

9889350321 — sukriti.srivastava2903@gmail.com — linkedin.com/in/sukritisrivastava29 — github.com/sukritisrivastava29

Education

JSS Academy of Technical Education

Bachelor of Technology in Electronics and Communication Engineering

Noida, India

2023 – 2027

– CGPA: 8.16/10

Experience

Web Developer

June 2023 – Present

Quanta Technical Society, JSS Academy of Technical Education

Noida, India

- Collaborated with a team of **10 developers** to design, develop, and maintain the official Quanta Society website using **React.js, JavaScript, HTML, CSS, Tailwind CSS, and Git**
- Developed 10+ responsive and reusable UI components, improving website performance, accessibility, and user experience across multiple devices.
- Conducted **5+ hands-on workshops** on HTML, CSS, JavaScript, and responsive web development for **100+ students**, strengthening foundational frontend development skills.

Projects

Triply — *React.js, Tailwind CSS, Vite, Gemini API*

Live — GitHub

- * Built an AI-powered travel planning platform using React.js and Google's Gemini API that generates personalized travel itineraries based on destination, budget, duration, and preferences.
- * Architected the frontend using 30+ reusable React components with React Hooks, client-side routing, and modular component design.
- * Implemented asynchronous API integration, loading states, error handling, validation, itinerary copy functionality, and responsive UI for an improved user experience.
- * Deployed the application on Vercel with optimized performance across desktop, tablet, and mobile devices.

FinanceOS — *React.js, Node.js, Express.js, MongoDB, Tailwind CSS, Gemini API*

Live — GitHub

- * Developed a full-stack AI-powered personal finance platform using the MERN stack with secure JWT authentication and protected REST APIs.
- * Built an AI Financial Assistant using Google's Gemini API to provide personalized spending insights and answer finance-related queries in real time.
- * Integrated OCR-based receipt scanning using Tesseract.js to automatically extract transaction details and reduce manual data entry.
- * Designed interactive analytics dashboards with monthly income vs expense charts, category-wise expense visualization, PDF report generation, search, filtering, CRUD operations, and responsive UI.
- * Implemented reusable React components, modern Tailwind CSS design system, API integration, and deployed the application using Vercel and Render.

Technical Skills

Languages: JavaScript (ES6+), TypeScript, Java, Python, C++

Frontend: React.js, Tailwind CSS, HTML5, CSS3, Vite

Backend: Node.js, Express.js, REST APIs, JWT Authentication, Next.js

Database: MongoDB, Mongoose, MySQL

AI & APIs: Google Gemini API, Tesseract.js (OCR), API Integration

Libraries: Axios, Recharts, React Router, React Hot Toast, jsPDF

Tools: Git, GitHub, Postman, VS Code, Vercel, Render
